FINANCE EXECUTIVE

Controllership | Capital Governance | Regulated Utilities

Leadership that turns complexity into confidence.

EXECUTIVE PROFILE

Tech-forward finance and governance leader with 15+ years of experience in complex, regulated environments. Brings an integrated perspective across controllership, internal audit, capital project controls, Big 4 client mandates and utility-sector decision-making.

Connects financial stewardship, technology, governance and capital allocation to help executive teams make sharper decisions, strengthen accountability and protect enterprise value.

EXECUTIVE VALUE LENS

FINANCIAL LEADERSHIP

Controllership, reporting discipline and decision support that improve accountability without slowing the business.

CONTROLS & RISK

Forward-looking assurance, ICFR and anomaly detection that surface structural risk before value is lost.

CAPITAL GOVERNANCE

Procurement, vendor oversight and governance across the capital lifecycle - before commitments become sunk costs.

TECHNOLOGY & DATA

Analytics and automation that increase visibility, strengthen controls and accelerate finance decisions.

SELECTED EXECUTIVE PORTFOLIO

REGULATED UTILITIES

Financial and governance leadership where capital, regulation, reliability and ratepayer accountability intersect.

CAPITAL PROJECT CONTROLS

Governance frameworks spanning business cases, procurement, contract oversight, change control and executive reporting.

ASSURANCE & ICFR

Risk-based assurance and internal-control thinking designed to move beyond retrospective compliance.

BOARDROOM COMMUNICATION

Translating technical finance and risk detail into concise, decision-ready intelligence for senior leaders.

BOARDROOM PERSPECTIVES

Executive insights for CFOs, audit leaders and boards.

Finance | Governance | Enterprise Value
